

LiveCycle ES2: LiveCycle ES2 Document Output Specialist

Course length: 1 day

Course Description

This workshop is designed as a specialist workshop for LiveCycle ES2, focusing on the LiveCycle Output and PDF Generator modules. In addition to providing you with an overview of the output services, a large segment of the training is devoted to hands-on exercises as well as demonstrations.

Performance-Based Objectives

The objective of the workshop is to create a print and archive solution. To the extent that Adobe® LiveCycle PDF Generator, Output and supporting solution modules are used to build the solutions that will convert documents or data into a PDFs or print streams.

Course Content
