Get To Know Apptius...

Apptius has been providing businesses of all sizes with software, IT and specialized staffing solutions since 2001.

Apptius's professionals can help businesses get more value out of their investment in IT systems through the development of custom solutions designed to address the unique needs of their business.

By learning more about your business and its goals, our professionals can design a system that will grow and expand with your business.

Businesses have been supplementing their staff with Apptius professionals to fill gaps in internal staff or because special expertise is required to complete a strategic project.

Businesses in Winnipeg and Manitoba confidently come to Apptius because they know that they get high quality work and outstanding customer service for a price that won't break their budget.

The History...

Apptius Computer Solutions was established with the amalgamation of two founders of independent consulting firms and a senior executive and two senior programmers of a publicly traded international software development company.

The mission of Apptius is to become a leading provider of professional software development services that enable clients to improve their business with effective use of available technology.

Our team of highly trained and experienced Microsoft Certified Professionals provide end-to-end, turnkey solutions that have made many businesses run more efficiently and save money.

The People

Apptius employs only the most talented and highly trained individuals, with many employees having over 15 years of experience. We excel at delivering projects on time, on budget and with quality.

Our team of experienced professionals use the many of the industry-leading development tools that address the needs of a wide variety of industries.

The Clients...

Apptius has worked with a wide range of businesses and has domain expertise in the following industries:

- All Levels of Government
- Health Care
- Social Services
- Insurance
- Agriculture
- Retail
- Not-for-Profit
- Transportation
- Training Organizations

The Methodologies...

Using a proven approach of "phased project delivery" your organization will benefit from software solutions built by Apptius very early in the project life cycle.

Apptius can jump-start your projects by providing a complete and proven enterprise application framework so you have more to invest towards developing application functionality.

Let our experienced Microsoft Certified Professionals build your solutions on time and on budget.

The Services

Dynamic and successful organizations realize the importance of investing in IT infrastructure to ensure that they can respond to business growth and adapt to a rapidly changing business environment.

■ Application Development

Get what you want when you want.

Put software to work for your unique business requirements, priorities and culture.

■ Business Analysis

One of the most important parts of successful project is properly defined requirements.

Ensure your project gets a good start with analysis of needs and conditions.

■ System Analysis & Design

Building a solid foundation for your business growth. Growing your organization on a foundation of logical systems and processes will be a key factor for success.

■ Strategic IT Planning

A plan will make your future growth easy. If you plan for the future now, when your business grows, your IT will grow with you, without the growing pains.

■ Project Management

Have a project but no manager? Our project managers can manage your project effectively.

■ Staff Augmentation

Need a special skill set right now?

Whether it's programming, project management or analysis, Apptius has individuals readily available with the skill sets you need for long or short term engagements.

■ Business Continuity and Disaster Recovery Planning

What would happen if you lost all of your business data?

Mitigate the risk and impact of hardware malfunctions, fire, or theft in your business with a proactive approach to ensure a swift and complete recovery of your business systems.

■ IT Analysis and Infrastructure Services

Your office network is the heart of your business. Make sure it's healthy.

Assessing network components will find trouble spots before they become major problems.

The Solutions

Apptius provides a wide variety of solutions with a focus on:

Consulting • Analysis • Deployment • Integration • Customization • Dexterity Development

Apptius's Solutions

Vantage Innovations is Apptius's brand of software offering different out of the box solutions to suit your business needs.

■ Vantage Shipping Custom Integration

Save time and money by automating your shipping department. Ask us how you can save 3% on your shipping costs!

■ Third Party Billing for Dynamics GP

Billing third parties has never been easier.

■ Rx-Vantage Suite - Pharmacy Solutions

A single source solution for online pharmacies.

Apptius partners with industry leading companies to ensure that you get only the best for your business.

Call Apptius today to see how our **Knowledge** and **Experience** equals meaningful **Solutions** for your business.
