## RxVantage Apptius Shipping Module (ASM)

Improve the speed and accuracy of shipping prescriptions with the Apptius Shipping Module. Eliminate hours of data entry, and costly errors by using existing address information within dispensing applications, such as KROLL™.

The Apptius Shipping Module is certified by Canada Post. This certification process results in:

- Generation of Canada Post certified labels, commercial invoices, and manifests on demand
- Compatibility with Canada Post recommended printers and scales
- Real-time retrieval of shipping cost estimates from Sell Online
- Instant availability of tracking numbers to your Customer Service Representative's

The Apptius Shipping Module is fast, easy-to-use, and reliable. Retrieve the order details and print accurate shipping labels in seconds by leveraging bar code scanning technology.

The Apptius Shipping Module is an efficient tool for streamlining your shipping process on the market today. Save time and money with this powerful application.

- Triple productivity
- Improve package tracking capabilities
- Eliminate data entry duplication and errors
